amount deposited in the bank, only the amount up to 50 thousand rupees was guaranteed. Then it was raised to one lakh rupees. That is, if the bank sank, then the depositors had a provision to get only up to one lakh rupees. There was no time limit on when this money would be paid. "Understanding the concern of the poor, understanding the concern of the middle class, we increased this amount to Rs 5 lakh", The Prime Minister said. Another problem was tackled by amending the law. "Earlier where there was no time limit for refund, now our government has made it mandatory within 90 days i.e. 3 months. That is, even in the event of a bank sinking, the depositors will get their money back within 90 days", he said.

The Prime Minister remarked that banks play a major role in the prosperity of the country. And for the prosperity of the banks, it is equally important for the depositors' money to be safe. If we want to save the bank, then depositors have to be protected.

Deposit insurance covers all deposits such as savings, fixed, current, recurring deposits, etc. in all commercial banks, functioning in India. Deposits in State, Central and Primary cooperative banks, functioning in States/Union Territories are also covered. In a path breaking reform, Bank deposit insurance cover was enhanced from Rs. 1 lakh to Rs. 5 lakh. With deposit insurance coverage of Rs. 5 lakh per depositor per bank, the number of fully protected accounts at end of previous financial year constituted 98.1% of the total number of accounts, as against the international benchmark of 80%.

The first tranche of interim payments has been released by the Deposit Insurance and Credit Guarantee Corporation recently, against claims received from depositors of 16 Urban Cooperative Banks which are under restrictions by RBI. Payout of over Rs 1300 crore has been made to alternate bank accounts of over 1 lakh depositors against their claims.
