Addressing the gathering, the Prime Minister greeted the nation on National Youth Day. Bowing to Swami Vivekananda, the Prime Minister said his birth anniversary in this year of 'Azadi Ka Amrit Mahotsav' is all the more inspiring. The Prime Minister noted the added significance of

this period as the celebration of the 150<sup>th</sup> birth anniversary of Sri Aurobindo and also the 100<sup>th</sup> death anniversary of Mahakavi Subramanya Bharathi is falling in the same period. "Both these sages have a special relationship with Puducherry. Both have been partners in each other's literary and spiritual journey", the Prime Minister said. Commenting on the young profile of

the ancient country, the Prime Minister said today, the world looks at India with hope and faith because, India's demography is young, and the mind of India is also young. There is youth in India's potential, and in its dreams. India is young in its thoughts as well as in its consciousness. India's thinking and philosophy has always accepted change and there is modernity in its antiquity, he said. The Prime Minister said that the youth of the country have always come forward in times of need. **India considers its youth as a demographic dividend ... (Contd. from page 1)**

When India needed sacrifice for its freedom, young revolutionaries like Bhagat Singh, Chandrashekhar Azad and Netaji Subhas came forward to dedicate their lives to the country. Whenever the country needs spiritual regeneration, sages like Aurobindo and Subramnayan Bharathi come to the scene, the Prime Minister added.

The Prime Minister said the youth of India have democratic values along with the demographic dividend, their democratic dividend is also incomparable. India considers its youth as a demographic dividend as well as a development driver, he emphasised. The Prime Minister stressed that today, if the youth of India has the charm of technology, then there is also the consciousness of democracy. Today, if the youth of India has the ability for hard work, then there is also clarity about the future. That is why what India says today, the world considers it to be the voice of tomorrow. The Prime Minister said the young generation at the time of independence did not hesitate for a moment to sacrifice everything for the country. But today's youth has to live for the country and fulfil the dreams of our freedom fighters. He added that the youth's ability is not burdened by old stereotypes, he knows how to shake them. This youth can evolve itself and society according to new challenges, new demands and can create new ones. The Prime Minister remarked that today's youth has a 'Can Do' spirit which is a source of inspiration for every generation.

The Prime Minister lauded that today, India's youths are writing the code of global prosperity. The Indian youth is a force to be reckoned with in the unicorn ecosystem all over the world. India today has a strong ecosystem of over 50,000 startups. Out of which, more than 10 thousand startups came up amidst the challenge of the pandemic. The Prime Minister gave the mantra of New India - Compete and Conquer. That is, get involved and win. Unite and win the battle. The Prime Minister cited the performance in Olympics and Paralympics and participation of youth in the vaccination drive as proof of will to win and a sense of responsibility among the youth.
