Chief Secretary directs to conduct raid in Haddo and Junglighat on utilisation of shore power provided by ALHW to private ships

Major discrepancies in provision of shore supply connections to private ships found during raid

Chief Secretary orders strict action against violators to weed out menace of corruption

Port Blair, Jan. 15

The Chief Secretary, Andaman & Nicobar Administration, Shri Jitendra Narain today directed a team of Port Management Board, Electricity Department and DSS officials to conduct a raid in Haddo and Junglighat areas on the utilisation of shore power provided by ALHW to private ships.

The raid was conducted after it was informed that certain officials of ALHW working in the port in connivance with the ship

owners were tampering with the electricity meters installed and thus, were enabling the private ship owners from paying lesser amounts as electricity bills than what was being consumed.

During the raid, it was noticed that there were major discrepancies in provision of shore supply connections to private ships. The matter had come to the notice of the foreman of PMB who saw that the meters installed for the ship of one particular private owner was not readable

and the data was missing. Further, the meters were installed by the private ship owners themselves. It was noticed that in Phoenix Bay, some of the energy meters provided to the ship owners were pre-programmed and not as per the Current Transformer installed. Hence, the actual billing of electrical energy being utilized was not being done. This resulted in a huge loss in revenue to the PMB. It was also noticed that an illegal shore supply connection was provided to a contractor of

ALHW without the permission of PMB and because of this discrepancy, there was a huge revenue loss to PMB.

The matter is being further enquired into in order to root out the source of the tampering. The Chief Secretary directed that the strictest action possible should be taken against the violators so that the menace of corruption can be weeded out and there is no revenue loss to the Administration, a press release from Secretary (Shipping/PMB) said.

PM interacts with Startups...

(Contd. from page 1)

changes that the Government is making in this decade to strengthen the innovation, entrepreneurship and start-up ecosystem. First, to liberate entrepreneurship and innovation from the web of Government processes, bureaucratic silos. Second, creating an institutional mechanism to promote innovation. And third, handholding of young innovators and young enterprises. He listed programmes like Startup India and Standup India as part of the efforts. Measures like removing problems of 'angel tax', simplification of tax procedure, arranging for Government funding, allowing self certification of 9 labour and 3 environment laws and removal of more than 25 thousand compliances have taken the process further. Startup runway on the Government e-Marketplace (GeM) platform is facilitating the provision of startup services to the government.

The Prime Minister said the Government's effort is to institutionalize innovation in the country by creating attraction for innovation among students since childhood. More than 9000 Atal Tinkering Labs are giving children a chance to innovate in schools and work on new ideas. He added that whether it is new drone rules, or new space policy, the priority of the Government is to provide opportunities for innovation to as many youth as possible. Our Government has simplified the rules related to IPR registration too, he added.

Shri Narendra Modi singled out India's diversity as a key strength and keystone of India's global identity. He said that Indian unicorns and startups are the messenger of this diversity. The Prime Minister said start-ups from India can easily reach other countries of the world. So "don't just keep your dreams local, make them global. Remember this mantra- let's Innovate for India, Innovate from India", he exhorted the innovators. The Prime Minister told the startups that this is a new era of innovation i.e. ideas, industry and investment and their labor, enterprise, wealth creation and job creation should be for India. "I am standing with you, the Government is with you and the entire country is standing with you", he concluded.
