PM addresses B20 Summit India 2023

Business can transform potential into prosperity, obstacles into opportunities, aspirations into achievements: PM

New Delhi, Aug. 27 (PIB)

The Prime Minister, Shri Narendra Modi addressed the B20 Summit India 2023 in New Delhi today. B20 Summit India brings policymakers, business leaders and experts from across the world to deliberate and discuss the B20 India Communiqué. The B20 India Communiqué includes 54 recommendations and 172 policy actions for submission to G20.

Addressing the gathering, the Prime Minister emphasized the celebratory moment that was ushered in by the successful Chandrayaan Mission landing on 23rd August. He said, India's festive season has advanced, and society as well as businesses are in a celebratory mood. Noting the role of ISRO in the successful Lunar mission, the Prime Minister also acknowledged the role of the industry in the mission as many components of Chandrayaan were provided by the private sector and MSMEs. "This is a success of both science and industry", he said.

He continued that along with India, the entire world is celebrating and this celebration is about running a responsible space programme. The

Prime Minister said that the celebrations are about responsibility, acceleration, innovation, sustainability and equality, the theme of today's B20. He further

added that it is about humanity, and about 'One Earth, One Family and One Future'

Speaking about the B20 theme 'R.A.I.S.E.', the Prime Minister said

that even though the 'I' represents innovation but he pictures another 'I' of inclusiveness. He informed that the same vision has been applied when inviting the African Union to permanent seats at the G20. Even in B20, the Prime Minister said that the economic development of Africa is identified as a focus area. "India believes that the inclusive approach of this forum will have a direct impact on this group", the Prime Minister said. He noted that the successes of the decisions taken here will have a direct impact in dealing with global economic challenges and creating sustainable growth.

Talking about the lessons learnt from the once in a century calamity i.e. the Covid-19 pandemic, Shri Modi said that that the pandemic taught us that the thing that needs most of our investment is 'mutual trust'. The Prime Minister said that as the pandemic shattered the edifice of mutual trust, India stood with confidence and humility raising the banner of mutual trust. India, the Prime Minister said, made medicines available to more than 150 countries, living up to its status

PM's Mann Ki Baat

Mission Chandrayaan has become a symbol of the spirit of New India: PM

New Delhi, Aug. 27

Prime Minister, Shri Narendra Modi has said that Mission Chandrayaan has become a symbol of the spirit of New India, which wants to win in any situation and knows how to win. He said, today, the country's dreams are big and its efforts are also big. Addressing the nation in his Mann Ki Baat programme on Akashvani today, the Prime Minister lauded the successful mission of Chandrayaan 3 saying that India has proved on the 23rd of this month that some suns of resolve rise on the moon as well.

Stressing on the women-led development, the Prime Minister said, that where the might of women's power is added, the impossible can also be made possible. Shri Modi highlighted that

Mission Chandrayaan is also a live example of woman power as so many women scientists and engineers are directly involved in this Mission. Shri Modi said, that when the daughters of a country become so ambitious, no one can stop that country from becoming developed. He also lauded the contributions of other sectors in the success of Chandrayaan 3 saying that many countrymen have contributed to the success of this Mission. He wished that the country's space sector would achieve innumerable success in the future with the

collective efforts of all.

Speaking about the G20 Leaders' Summit which is scheduled to be organised in New Delhi on the 9th and 10th of next month, Prime Minister, Shri Narendra Modi said, India is fully prepared for the Summit. He mentioned that the Heads of 40 countries and several global organisations will participate in this event which will be the biggest participation ever in the history of the G20 Summit. He emphasised that India has made G20 a more inclusive forum during its Presidency as the

PM addresses B20 Summit India 2023...

(Contd. from page 1)

as the pharmacy of the world. Similarly, vaccine production was increased to save crores of lives. The Prime Minister said that India's democratic values show in its action and its response. He said, "India's democratic values show in G20 meetings in more than 50 cities of India."

Emphasizing the attractiveness of partnership with India for the global business community, the Prime Minister mentioned India's young talent pool and its digital revolution. "The more your friendship deepens with India, the more prosperity accrue to both", PM Modi added.

He said "business can transform potential into prosperity, obstacles into opportunities, aspirations into achievements. Whether they are small or big, global or local, business can ensure progress for everyone." Therefore, the Prime Minister said, "the future of global growth is dependent upon the future of business".

Throwing light on the transformations in life that have occurred with the onset of Covid 19 pandemic, the Prime Minister noted the irreversible change of disruptions in the global supply chain. Questioning the efficiency of the global supply chain that ceased to exist when the world required it the most, the Prime Minister underlined that India is the solution to the disruptions that the world is dealing with today. He highlighted India's position in creating a trusted supply chain in the world today and emphasized the contributions of global businesses.

Expressing happiness that B20 has emerged as a robust platform among businesses of G20 nations, PM Shri Modi stressed the need to focus on sustainability. He asked global business to move forward as sustainability, in itself, is an opportunity as well as a business model. He elaborated this by giving an example of millet which is a superfood, environment friendly as well as good for small farmers making it a win-win model from the angle of both economy and lifestyle. He also mentioned the circular economy and green energy. India's approach of taking the world along is visible in steps like the International Solar Alliance.

The Prime Minister asked for a reconsideration of the traditional approach to business. He said that there is a need to go beyond brand and sales. He said, "As a business, we also have to focus on creating an ecosystem that will benefit us in the long term. Now, due to the policies implemented by India in the past few years, 13.5 crore people have come out of poverty in just 5 years. These people are the new consumers. This neo middle class is also giving momentum to India's growth. That is, the net beneficiary of the work done by the Government for the poor is our middle class as well as our MSMEs." The Prime Minister stressed that businesses should focus on improving the purchasing power of more and more people as a self centric approach will harm everyone. Referring to a similar challenge of uneven availability and universal need in critical material and rare earth metals, Prime Minister, Shri Modi said, "If those who have them do not look at them as global responsibility then it will promote a new model of colonialism."

Noting the presence of the world's business leaders, the Prime Minister raised significant questions and said that the future of business and humanity will be decided by the answers to these questions. Regarding the answers, Shri Modi said that mutual cooperation is necessary to answer them. He underlined that issues like climate change, energy sector crisis, food supply chain imbalance, water security, cyber security etc. have a big impact on business, and stressed on increasing the efforts to counter this. He also touched upon issues that no one could have thought of 10-15 years ago and gave the example of challenges related to cryptocurrencies. The Prime Minister stressed the need for a more integrated approach in this matter and suggested creating a global framework where issues of all stakeholders can be addressed. He also spoke about a similar approach needed regarding artificial intelligence. Highlighting the buzz and excitement around AI, the Prime Minister drew attention to some ethical considerations regarding skilling and re-skilling, and concerns regarding algorithm bias and its impact on society. "Such issues have to be resolved together. Global business communities and Governments will have to work together to ensure that Ethical AI expands", the Prime Minister asserted and stressed on sensing the potential disruptions in different sectors.

Concluding the address, the Prime Minister said that businesses have successfully gone beyond borders and boundaries but it is now time to take businesses beyond the bottomline. He said that it can be carried out by focusing on supply chain resilience and sustainability. Shri Modi expressed confidence that the B20 Summit has paved the way for a collective transformation. "Let us remember that a connected world is not just about connection through technology. It is not only about shared social platforms but also about a shared purpose, shared planet, shared prosperity and a shared future", the Prime Minister remarked.

12th Death AnniversaryOn 28th August, 2023

In Loving Memory of
Late RATAN SINGH (Ex-P.E.T.)

**"Papa"**

The strength of a mountain, majesty of a tree,
Generous soul of nature, the wisdom of the ages,
The power of the Eagle's flight, the depth of a family needs.
To our very own guardian angel you walked ahead,
You walked ahead always in strength and kindness
and taught us the same.

The time we had Papa wasn't nearly enough
to pack in an entire lifetime of love and memory.

Remember how you thought me to swim,
holding me until I began to trust the water and myself ?

I see you like a rain drop falling
into that same lake where you held me
becoming part of it all.

And now How I know to trust the water and myself

But still miss you
