GREETINGS

On the occasion of National Sports Day, I extend my warmest greetings and best wishes to all Islanders. This day is a tribute to the spirit of sportsmanship, determination, and unity that resonates across our nation and beyond. National Sports Day celebrates the importance of sports in our daily lives and is observed on the birth anniversary of sporting legend Major Dhyani Chand who is also known as 'Wizard of Hockey'.

Sports have the remarkable ability to bring people together, transcending barriers and fostering a sense of camaraderie. Our Islands have a rich history of embracing various sports and nurturing talent. In the last several decades Andaman and Nicobar Islands have produced hundreds of National and International Level sports persons, who have brought laurels for our Country as well as our Islands and made us proud.

As we celebrate this day, let us take a moment to recognize the dedication of our athletes, coaches, and sports enthusiasts who continue to inspire us with their hard work and achievements.

Physical activity not only contributes to our well-being but also instills important life values such as discipline, teamwork, and resilience. I encourage all of you to stay active and engage in sports, not just for the sake of competition, but to experience the joy of staying healthy and connected.

ISRO to launch 'Aditya L1' mission to study Sun on 2nd September from Sriharikota

Sriharikota, Aug. 28

ISRO's Aditya-L1, the first space-based Indian observatory to study the Sun will be launched on the 2nd of September at 11.50 hrs from Sriharikota Space Station in Andhra Pradesh. In a tweet ISRO informed that it will launch the PSLV-C57 for the Aditya L1 Mission. The satellite will be placed in a halo orbit around the Lagrange point L1 of the Sun-Earth system which is about 1.5 million kms from the Earth. It will take around four months to reach the Lagrange point. The advantage of a halo orbit around the L1 point is that the satellite can observe the solar activities without any obstruction by other celestial activities like eclipse.

After the success of Chandrayaan 3, ISRO has now taken up another ambitious Aditya L1 mission. The Aditya L1 mission is to

study the solar winds and the Sun's atmosphere. It will carry seven payloads to observe the photosphere, chromosphere, and the outermost layers of the Sun namely the corona. This will help understand the problems of coronal heating, Coronal mass ejection, pre-flare and flare activities, dynamics of weather, and the study of the propagation of particles and fields in the interplanetary medium. ISRO has invited the citizens to witness the launch of PSLV-C57 launch from the viewing gallery at Sriharikota by registering at their website.
