India creates history : Chandrayan-3 makes soft landing on Moon; PM Modi congratulates ISRO

India has reached the South Pole of the Moon where no country in the world could reach to date with the dedication and talent of our scientists: PM

New Delhi, Aug. 23

India has created history by reaching the Moon. The Indian Space Research Organisation (ISRO) accomplished the task of soft landing of its Lander module, Vikram on Lunar surface today. With this achievement, India has taken a giant leap in the area of space research, by also becoming the first country to reach the south pole of the Moon. The Chandrayaan-3 mission was launched on 14th of last month. After successfully completing several stages during its 43-day journey, the Chandrayaan today landed on the Earth's only satellite, the Moon.

The Prime Minister, Shri Narendra Modi joined the ISRO team via Video Conferencing to witness the landing of Chandrayaan 3 on the Moon's surface today. Immediately after the successful

landing, the Prime Minister addressed the team and congratulated them for the historic achievement. Addressing the team as family members, the Prime Minister, said that such historic events become the eternal consciousness of a nation. "This moment is unforgettable, unprecedented. It is the moment of the clarion call of 'Viksit Bharat', a victory call for India, this is a moment of crossing the ocean of difficulties and walking on the 'Chandrapath' of victory. This is a moment of the capability of the 140 crore heartbeats and the confidence of the new energy of India. This is a moment of invoking the rising fortune of India", the Prime Minister told a jubilant nation. "In the first light of 'Amrit Kaal' this is 'Amrit Varsha' of success", a visibly elated Prime Minister added. The Prime Minister quoted the scientists and said,

"India is now on the moon!" He stated that we have just witnessed the first flight of the new India.

The Prime Minister informed that he is currently in Johannesburg attending the BRICS Summit but his mind was also focussed on Chandrayaan 3 like every other citizen. He said that every Indian has immersed themselves in celebration and it is a day of festivity for every family as he is connected with every citizen with enthusiasm on this special occasion. The Prime Minister congratulated Team Chandrayaan, ISRO and all the scientists of the country who have worked tirelessly for years and also congratulated the 140 crore countrymen for this wonderful moment filled with enthusiasm, joy and emotion!

"India has reached the South Pole of the

Moon where no country in the world could reach to date with the dedication and talent of our scientists", the Prime Minister remarked. He underlined that all the myths and stories related to the Moon will now change and the proverbs will find a new meaning for the new generation. Referring to the Indian folklore where the Earth is considered 'Maa' and the Moon, 'Mama', the Prime Minister said that the Moon is also considered very distant and referred to as 'Chanda Mama dur ke', but the time is not far when the children would say 'Chanda Mama ek tour ke' i.e. the moon is only a tour away.

The Prime Minister, addressing the people of the world, every country and region, said "India's successful moon mission is not India's alone. This is a year in which the world is witnessing India's G-20 presidency. Our

approach of 'One Earth, One Family, One Future' is resonating across the globe. This human-centric approach that we represent has been welcomed universally. Our moon mission is also based on the same human-centric approach. Therefore, this success belongs to all of humanity. And it will help moon missions by other countries in the future." Shri Modi added. "I am confident that all countries in the world, including those from the Global South are capable of achieving such feats. We can all Aspire for the moon and beyond."

The Prime Minister expressed confidence that the achievements of Chandrayaan Maha Abhiyan will take India's flight beyond the lunar orbits. "We'll test the limits of our solar system, and work to realize
