India to set new data standards in G20 stint
New Delhi, Dec. 26
Data is today the world's most valuable resource and is essential for nuanced and effective policy making. Stating this, Shri Amitabh Kant, India's G-20 Sherpa and former CEO of Niti Aayog, said India in its G20 presidency, will call for modernisation of data systems and advance principles of transparency to better use of data for development. He said as India step into techade, data must be accessible to all and we must adopt a multisectoral approach to collecting, integrating and interpreting data.
Shri Amitabh Kant said that in the dense forests of Maharashtra, a novel data collection tool is changing the lives of children with malnutrition. However, he said, in the last few years, the Integrated Child Development Services have been able to contain and bring down malnutrition rates with the help of the Poshan Tracker application.
Shri Kant said, Data forms the bedrock on which today's knowledge pyramid rises towards a wariness, understanding and finally, wisdom, which is essential for nuanced and effective policy making. He said, the G20 presidency of India will be pivotal for this world.
The World Development Report 2021 asserts that there is a need for forging a new social contract for data which finally fosters trust such that people are protected from the harms of data misuse. Shri Kant said we must construct new rules for this data age, and the road ahead signals some critical but surmountable challenges.
India's G20 Presidency, Shri Kant said, is an opportune time to set a new gold standard for data. He called for modernisation of national data systems to incorporate citizen voices and preferences regularly and finally brings to the forefront the need for strategic leadership on data for sustainable development. RBI's revised bank locker rules ...
(Contd. from page 1)
locker depositors are required to furnish proof of eligibility for a renewed locker arrangement. They are required to sign a renewal agreement before the specified date. RBI advises the banks to install CCTV camera at entry and exit points of the strong room and the common areas of operation. It mandates to preserve its recording for a period of not less than 180 days.
RBI has also instructed banks to ensure that any "unfair terms or conditions" are not covered in their locker agreements. The revised guidelines add that the terms of the agreement shall not be more "onerous than required in ordinary course of business" to secure the interests of the bank.
According to the guidelines, if any customer has complained to the bank that his or her locker is opened without knowledge and authority, or any theft or security breach is noticed, the bank shall preserve the CCTV recording till the police investigation is completed and the dispute is settled.
Depositors can now get up to 100 times the bank charges if the valuables stored in the vaults are ransacked or lost due to fire or building collapse. However, the bank shall not be liable for any damage or loss of contents of the locker originating from natural calamities or 'Acts of God'. (Source: india.gov.in)

and its prevention and management aspects". He expressed confidence that doctors would continue to work dedicatedly in this fight, as they have been doing till now. Dr. Mandaviya urged participants to refrain from making speculations and only share accurate information with the public. He said that "our citizens look up to our COVID warriors for advice and due to recent increase in COVID-19 cases globally, it becomes the responsibility of our experts to share correct information so that rumors, misconceptions and in turn, fears can be prevented." He emphasized on mitigating even the slightest sense of panic in the citizens by making them aware about current status of COVID-19 data, the vaccination program and Government efforts. He cautioned against complacency. He urged on adherence to 'Test-Track-Treat-Vaccinate & Adherence to COVID Appropriate Behaviour' and uptake of precaution doses for the vulnerable groups. "Only this way we will be able to preserve the gains made so far through continued collective efforts", he stressed.
Informing about the mock drill planned tomorrow, Dr. Mandaviya emphasized that "based on our previous experience of managing this pandemic, we are undertaking several exercises, one such being the mock drill that will happen across the country tomorrow. Such exercises would help our operational readiness, help in filling gaps if any and will consequently strengthen our public health response."
Doctors and experts who have remained at the forefront in our fight against COVID-19 since its occurrence, appreciated the timely meetings being chaired by Hon. Prime Minister and Union Health Minister and agreed to contribute in the collective fight against COVID-19. Taking the message of Hon'ble Prime Minister forward, Dr. Mandaviya has chaired multiple meetings in last few days aiming at providing a platform for brainstorming of suggestions and ideas from all stakeholders.
