"From North to South, and East to West, people have seen pending projects being completed in a timely manner": PM

"No such sector in India now where the doors are closed for daughters of the country"

New Delhi, Feb. 5 (PIB)

The Prime Minister, Shri Narendra Modi replied to the Motion of Thanks on the President's address to Parliament in the Lok Sabha today.

The Prime Minister began his address to the House by referring to the Sengol that led the procession with pride and respect as Rastrapati Ji arrived in the new House to deliver her address and the rest of the Parliamentarians followed her lead. PM Shri Modi underlined that this legacy increases the dignity of the House manifold and said that the 75th Republic Day, the new Parliament House and the arrival of the Sengol was a very impactful event. He thanked the Members of the House for contributing their thoughts and ideas to the Motion of Thanks on the President's Address.

The Prime Minister

underlined that the President's address is a huge document based on facts that gave an indication of the speed and scale of India's progress and also drew attention to the fact that the nation will become developed faster only if the four pillars of Nari Shakti, Yuva Shakti, the poor and the Ann Data are developed and strengthened. He said the address illuminates the path for the nation to become Viksit Bharat by strengthening these four pillars.

Stressing the need for a strong opposition, the Prime Minister said that dynastic politics is a cause for concern for the Democracy of India. Throwing light on the meaning of dynastic politics, PM Shri Modi explained that a political party which runs a family, prioritizes its members, and where all decisions are taken by the family members is considered dynastic politics

Narendra Modi, Prime Minister

rather than several members of a family who are making their way forward in politics on its own strength with the support of the people. "I welcome all young people in politics who are here to serve the nation", PM Shri Modi exclaimed, drawing attention to the dangers of dynastic politics to democracy. He lamented the emergence of a culture in politics and said the developments taking place in the country do not belong to one person but to every citizen.

Commenting on India's robust economy which is being appreciated by the world

today, the Prime Minister said, "Modi's guarantee that India will become the 3rd largest economy of the world in the present government's third term". He said that the world's views and opinions towards India can be summed up by the success of the G20 Summit.

Underlining the role of the government in steering the nation towards prosperity, Prime Minister Shri Modi drew attention to the Interim Budget tabled in the House in 2014 by the previous government and the statement of the then Finance Minister. He pointed out that during his address, the then

Finance Minister had informed about India being the 11th largest economy in terms of the size of its GDP, while today the country has reached the 5th position. Further quoting the then FM, the Prime Minister said that the nation would grow to become the 3rd largest economy in the world after the USA and China in the next 3 decades. "Today", the Prime Minister exclaimed, "I assure the nation that India will become the 3rd largest economy in the world in the present government's third term."
