Govt. notifies Amendments to IT (Intermediary Guidelines and Digital Media Ethics Code) Rules 2021 for an Open, Safe, Trusted & Accountable Internet

Intermediaries to respect rights accorded to the Indian citizens under Article 14, 19 & 21 of the Indian Constitution

New Delhi, Oct. 29 (PIB) 'Protection of constitutional rights of Indian citizens - a must. India under Prime Minister, Shri Narendra Modi is a trustee of rights of its citizens & Digital Nagriks', said Minister of State, Shri R a j e e v Chandrasekhar while addressing media on the amendments to the IT Intermediary Rules 2021, notified by the Government on 28th October, 2022. In a major push towards an Open, Safe & Trusted and Accountable Internet, the Ministry of Electronics and IT notified these amendments aimed at protecting the rights of Digital Nagriks. It also enhances due diligence requirements and ensuring accountability of social media and other intermediaries. They have been notified against the backdrop of complaints regarding the action/inaction on the part of the intermediaries on user grievances regarding objectionable content or suspension of their accounts. The intermediaries now will be expected to ensure that there is no uploading of content that intentionally communicates any misinformation or information that is patently false or untrue hence entrusting an important responsibility on intermediaries. The rules also have made it explicit for the intermediary to respect the rights accorded to the citizens of India under the Articles 14, 19 and 21 of the Indian Constitution. Elaborating on the new sets of rules, Shri R a j e e v Chandrasekhar, said these amendments have been made to ensure that Internet is open, safe & trusted and accountable for our digital nagriks. The amendments were notified after the Ministry followed an exhaustive public consultation process involving all stakeholders. Sharing Government's vision & intent to work along with intermediaries for achieving the common goal of keeping the internet safe & trusted, the Minister affirmed that "these rules marks new partnership between the Government and Intermediaries in making & keeping our Internet Safe & Trusted and Accountable" (Contd. on last page)

PM to share his thoughts in 'Mann Ki Baat' programme on AIR today

New Delhi, Oct. 29 monthly radio programme. Prime Minister, Shri Narendra Modi will share his thoughts with the people of the country and abroad in the 'Mann Ki Baat' programme on All India Radio at 11 AM tomorrow. It will be the 94th episode of the YouTube channels of AIR News, DD News, PMO and Information and Broadcasting Ministry. AIR will broadcast the programme in regional languages immediately after the Hindi broadcast. (Source: india.gov.in)

Govt. to set up Committees for grievance redressal of social media users

New Delhi, Oct. 29 According to the notification, each Grievance Appellate Committee will be set up within three months by the Government for resolving social media users' grievances. In this regard, a gazette notification was issued by the Ministry Of Electronics And Information Technology yesterday to amend the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021. the Grievance Officer. It also states that the Grievance Appellate Committee will adopt an online dispute resolution mechanism. Terming this a step towards empowering the users, Electronics & Information Technology Minister, Shri Ashwini Vaishnaw said, the focus is on the protection of online users. He said, Grievance Appellate Committee has been introduced for hearing (Contd. on last page)

DDG NCC (TN, Pondy & A&N) interacts with mediapersons

Highlights aspects of expanding the reach of NCC in Isles

Staff Reporter

Port Blair, Oct. 29 The Deputy Director General, National Cadet Corps, Directorate of Tamil Nadu, Puducherry and Andaman & Nicobar, Commodore Atul Kumar Rastogi, while interacting with the media persons at a press conference held in the Auditorium of JNRM today highlighted the aspects of expanding the reach of NCC in Islands and work closely with the Civil Administration to provide better opportunities to the cadets and integrate them in the mainland events/activities of NCC. The DDG is currently on his maiden visit to these Islands after taking over the charge. He said, the Directorate of Tamil Nadu, Puducherry and A&N is

one of the best Directorates in the Country which is doing very well at the National level. There are two NCC Units in A&N Islands comprising of Army & Naval Unit and both Units are doing very well and the purpose of his visit is to interact with Cadets. The DDG further informed that there are 17 Directorates in the Country and the cadets from the Directorate of Tamil Nadu, Puducherry & A&N are excelling in various

camps & sports activities. The Directorate has done well in National Level last year and remained second in sports shooting, second in Vayu Sainik & Nau Sainik Camps, he said. The Directorate is preparing the cadets for the coming 'Republic Day Camp' and their performances in these Camps will motivate the future generation, the DDG said adding that the cadets also aspire to represent the (Contd. on last page)

India has emerged as a leading country in the world in delivery of Digital Health services: Minister

New Delhi, Oct. 29

Union Minister of State(I/C) for Department of S&T & Earth Sciences, Dr. Jitendra Singh has said that India has emerged as a leading country in the world in delivery of Digital Health Services. He said, India will become a digital health leader as it has the world's best technical manpower and its data is the cheapest in the world, approaching 100 percent coverage.

Addressing the first-ever Global Digital Health Summit, Expo and Innovation Awards in New Delhi on Friday, Dr. Singh said, the recent launch of 5G will bring a new revolution in the Digital Health care system in the country. He

pointed out that the whole world recognised India's leadership role during COVID-19, as it achieved the rare feat of delivering over 220 crore vaccinations through a fully digital platform - COWIN and the process continues.

This summit is in partnership with global bodies working in Digital Health and co-hosted by the Internet Governance Forum, United Nations. Over 1,500 delegates from 35 countries participated in this summit. (Source: india.gov.in)

towards Flag Point from any side after 1430 hrs.

Vehicles intending to proceed towards Flag Point shall take the route to Shadipur from Scout Hut Junction. Similarly, no vehicles will be permitted towards RK Mission

from Murugan Temple after 1430 hrs and no vehicles will allowed to park at Girls School, Dharamsala, JNRM and Flag Point, a press release from Additional District Magistrate, South Andaman District said.

COVID-19 status in A&N Islands

Port Blair, Oct. 29

No COVID positive case has been detected today in A&N Islands. Today, 16 flights with 2386 passengers arrived, out of which, 2142 passengers were vaccinated with both doses while RT-PCR test was conducted on 22 passengers and the reports are awaited, a press release from Directorate of IP&T said.

Port Blair, Oct. 29

With the objective to build a strong eco-system for nurturing innovation and Startups in the country, the Government of India launched a Startup India Action Plan that offers support to recognized Startups through 'handholding', 'funding/incentives & incubation'. Under this initiative, the Andaman and Nicobar Islands is witnessing a brand new generation of startups, making

their presence felt in every corner of the Islands and are ready to take the next big step in making impact nationally. One such startup by the name 'Farmshelf Island Agrotech Private Limited' founded by Shri

Adarsh Toppo and Shri Soumick Das, local youth of Isles has paved its own road of innovation and dreams which will inspire many more to venture into startups. 'Farmshelf Island Agrotech Private

Limited' is an Agri Tech Start-up which is recognized by DPIIT to promote, sell & practices hydroponics cultivation. This method of cultivation is done using water without soil. The Startup which has

its farm at Humphreygunj is trying to create a 'Hydroponic Ecosystem' that grows high value organic vegetables with minimum space & maximum cultivation.

Adarsh and Soumick wanted to do something healthy and beneficial for the Islands by providing healthy and organic vegetables. They came across the idea of Hydroponics and decided to start this (Contd. on last page)

appeals against decisions of the Grievance Officer appointed by the intermediary.

He said, privacy policy and user agreements of intermediary are to be made available in the Eighth Schedule of Indian Languages. Shri Vaishnaw said, intermediary, will ensure the accessibility of its services to all users and respect their rights under the Constitution of India as the law of the land is supreme. (Source: india.gov.in)

Govt. notifies Amendments to IT (Intermediary Guidelines...

(Contd. from page 1)

Internet".

The amended rules are hosted on the Ministry's website and are available at: <https://egazette.nic.in/WriteReadData/2022/239919.pdf>.

Key changes effected in the rules are as under:

(a) Currently, intermediaries are only required to inform users about not uploading certain categories of harmful/unlawful content. These amendments impose a legal obligation on intermediaries to take reasonable efforts to prevent users from uploading such content. The new provision will ensure that the intermediary's obligation is not a mere formality.

(b) For effective communication of the rules and regulations of the intermediary, it is important that the communication is done in regional Indian languages as well.

(c) The grounds in rule 3(1)(b)(ii) have been rationalized by removing the words 'defamatory' and 'libellous'. Whether any content is defamatory or libellous will be determined through judicial review.

(d) Some of the content categories in rule 3(1)(b) have been rephrased to deal particularly with misinformation, and content that could incite violence between different religious/caste groups.

(e) The amendment requires intermediaries to respect the rights guaranteed to users under the Constitution, including a reasonable expectation of due diligence, privacy and transparency.

(f) Grievance Appellate Committee(s) will be established to allow users to appeal against the inaction of, or decisions taken by intermediaries on user complaints. However, users will always have the right to approach courts for any remedy.

Union Commerce & Food Minister asks business community to allocate at least 5 % of budget for 'One District-One Product'

New Delhi, Oct. 29

Union Commerce and Food Minister, Shri Piyush Goyal urged the business community to be partners in making the country a developed nation by 2047 as part of Panch Praan, proposed by Prime Minister, Shri Narendra Modi. Emphasising the collective duty in this direction, the Minister asked them to nurture product marketing and support each other to ensure the Make in India programme is a success.

Interacting with members of the Federation of Telangana Chambers of Commerce and Industry (FTCCI) in Hyderabad last evening, the Minister asked them to allocate at least 5 per cent of their budget for One District- One Product (ODOP) to help people in remote areas to get transformational results towards self-

reliant India.

The Commerce Minister emphasised the need to enhance quality to tap international opportunities and asked them to make standards in quality control a part of the work culture. Referring to quality controls for the jewellery sector which were formed about 20 years ago, the Minister said however, they were not implemented.

Following the Government's efforts during the past two years, he said now over 250 districts in the country have hallmarking centres and 90 per cent of jewellery is hallmarked now. Referring to exports, the Minister said the exports this year are likely to touch 750 billion dollars as against 675 billion dollars last year.

Shri Goyal asked the cotton industry stakeholders to discuss a

strategy to ensure the traceability of cotton, get a better value of cotton products and to brand Indian cotton. He said block chain technology for enhancing the traceability of cotton from Farm to Foreign is under consideration and it will be tried on a small scale initially and later expanded.

The Minister made it clear that there will not be any change in policy relating to the exports of rice for now. He said the Government will have to keep national food security in view and the country needs over 100 million tonnes of foodgrains every year to support 80 crore, poor people. The Minister said under Prime Minister Garib Kalyan Yojana, every individual is being given 10 kg of rice or wheat per month. (Source: india.gov.in)

Directorate and take part in 'All India Camps' to excel and earn medals. "We are trying to increase our infrastructure facilities, acquire land and trying to have permanent training areas exclusively for NCC", he said.

The DDG further stated that the students are active and with sheer hard work, proper exposure & guidance they can become officers in Armed Forces. NCC background helps the cadets during the recruitments in Armed Forces, he added.

Field day conducted for farmers of Ranchi Basti & Wandoor area

Port Blair, Oct. 29

The Animal Science Division of ICAR-Central Island Agricultural Research Institute, Port Blair conducted field day on 'ICAR-CIARI led Fodder Development in Islands' on 28th October, 2022 at Animal Farm Complex. The programme was conducted under the NABARD funded project 'Establishment of sustainable model village on fodder production at South Andaman'. The field day was attended by livestock farmers from Ranchi Basti and Indira Nagar of Wandoor area.

Dr. E.B. Chakurkar, Director, ICAR-CIARI addressed the participants and enlightened them with advanced knowledge on balanced feeding. He emphasized that

surplus production of fodder may pave the way for the Islands towards sufficiency in near future.

Dr. P.A. Bala, Senior Scientist and Course Director provided hands on training in fodder cultivation in the demonstration field at the farm. After the demonstration of the field activities, the farmers tried their hands on preparation of land, where they prepared the

field with spade and then prepared the bunds for sowing the fodder cuttings. Farmers were enlightened with soil type, their management, fortification, types of fodders and best fodders in the island scenario. 60 pieces of Bajra-Napier Hybrid (CO-6) grass stem cutting were distributed to the farmers by Dr. D. Bhattacharya, HoD, Animal Science Division, a press release from CIARI said.

Indian pair Satwiksairaj Rankireddy & Chirag Shetty advance to Men's Doubles Semi-finals of French Open Badminton tournament

Paris, Oct. 29

In French Open, India's top doubles pair Satwiksairaj Rankireddy and Chirag Shetty defeated 2021 world champions Takuro Hoki and Yugo Kobayashi of Japan in the men's doubles

quarter-finals by 23-21, 21-18 in 49 minutes. It was Chirag Shetty and Satwiksairaj Rankireddy's third win against the Japanese pair in four meetings. This is the only Indian challenge left in the competition.

T20 World Cup: India to play against South Africa today

Perth, Oct. 29

India will play against South Africa in T20 World Cup match in Perth tomorrow (Oct. 30). Defeat, for either teams, doesn't mean doom, but a win would go a long way in making path to reach the semi finals. India have

played two and won two. They beat Pakistan in a last-ball thriller and coasted to the finish line against Netherlands. South Africa, meanwhile, thumped Bangladesh in one and had their second fixture, against Zimbabwe, washed out.

(Contd. from page 1)

technique of modern farming to share its benefits with everyone. Their farm is operational and is successfully giving its produce of healthy green leafy and exotic vegetables with zero pesticides.

Through their Startup, they aim to encourage and empower people to adopt modern farming technology using hydroponics cultivation even in small land area. They also envisioned to make Andaman and Nicobar Islands sustainable through agriculture business by promoting greens and healthy vegetables that are grown in a soilless medium. The Startup has also started online sales.

The Startup Farmshelf Island Agrotech Private Limited is a source of inspiration for the budding and prospective entrepreneurs who could come up with such unique solutions for the betterment of their own livelihood as well as the nation as a whole.

The Directorate of Industries, A&N Administration has bestowed its good wishes to the startup and is always committed to provide handholding support and encourage such entrepreneurs in becoming successful Startups. The Industries Department has invited entrepreneurs to approach the Office for any queries/support. (Source: Industries Deptt.)

OFFICE OF THE DEPUTY COMMISSIONER
SOUTH ANDAMAN DISTRICT
NOTIFICATION

Port Blair, dated the 21st October, 2022
File No. 14/ACS/Quarry/LA/2021-22/TS-II/2021WHEREAS, in pursuance of Rule 15(1) of the Andaman and Nicobar Islands Minor Minerals Rules, 2012, A Committee was constituted vide Notification No.132/2015/F.No.34-738/2012-Rev(PF) dated 03rd August, 2015 for preparing Quarry Plan for the area(s)identified for quarrying under the provisions of the Rules.

AND, WHEREAS, the Committee after due examination, finalized a quarry plan at Hut Bay village, Little Andaman.

NOW, THEREFORE, in exercise of the power conferred under Rule 5 read with Rule 16 of the Andaman and Nicobar Islands Minor Minerals Rules, 2012, the Officer authorized by Lt.Governor to be competent to approve quarry plan i.e., the Deputy Commissioner (South Andaman), hereby approves the quarry plan containing the location, site plan, progressive and final closure plan, reclamation and restoration plan including specific guidelines for source-wise pollution control measures to be followed for quarry operations in South Andaman District as under:

QUARRY PLAN

A. BACKGROUND

The Andaman & Nicobar Islands Minor Mineral Rules, 2012 was notified on 20th September, 2012. In pursuance of Rule 6, contiguous areas for quarrying, having due regard to the restrictions mentioned in Rule 4, general topography and environmental aspects, was identified at Hut Bay village in Little Andaman Tehsil.

An area of 0.25 hectares out of Survey No.942 total area 21.04 hectares situated at Hut Bay village was identified for conduct of quarrying by without use of explosives.

The Hon'ble Lt. Governor, A & N Islands, in pursuance of Rule 15 and Section 5(b) of the Andaman and Nicobar Islands Minor Minerals Rule, 2012 read with Administration's Order No.312 dated 30/01/2015 and in supersession of Administration's Notification No.4-2/19-R/Quarry/PF-I dated 09/10/2012 notified the following committee vide notification dated 03/08/2015 for South Andaman District for preparing quarry plan for the area(s) identified for quarrying under Rule 6 of the said rules:-

1	The Assistant Commissioner (HQ)	Chairman
2	Representatives of Health Department as nominated by Director, Health Service	Member
3	Representatives of APWD as nominated by Chief Engineer, APWD, Port Blair	Member
4	Representatives of Forest Department as nominated by PCCF	Member
5	The Assistant Commissioner (Settlement)	Convener

The above Committee has been assigned the task of preparing quarry plan(s) for South Andaman District, which shall include for each identified area outer boundary, potential for extraction or crushing, progressive and final closure plan of quarry, plans for reclamation and restoration of land, measures for pollution control, responsibility of the quarry lease holder and any other matter that the committee may decide. The plan shall also include the cost of preparation of such plan or plans to be apportioned amongst the lease holders of quarries established on such area in such a manner as the committee may decide.

The Assistant Conservator of Forest (T) was nominated as member of the Committee by PCCF, Chief Medical Officer(NFSC) was nominated by Director of Health Services as member of the Committee and Junior Engineer, APWD was nominated as member of the Committee by Chief Engineer, APWD.

The Committee held its meeting on 15/03/2022 at 11.30AM, the Chairman informed about the urgency in preparing the quarry plan for the areas identified at Hut Bay village for quarrying and presented a draft quarry plan of the area before the committee for its perusal.

The Committee after perusal of the draft quarry plan and after deliberations and after making such modifications as deemed fit has prepared and finalized the quarry plan.

B. LOCATION

An area of 0.25 hectares was identified at Hut Bay village under Little Andaman Tehsil for conduct of stone quarrying without use of explosives.

- An area measuring 0.25 hectares has been identified out of the land bearing Sy. No. 942 area 21.04 hectares situated at Hut Bay village recorded in favour of Govt. Revenue Department (the area is shown in the map at page 9 of the plan).
- The details of area identified are as under:-

Sl. NO.	Name of Block	Sy. No.	Area in Hect.
1.	942/1	942	0.25

- The subject land is free from all encumbrances and the area includes the sites from where quarrying operations were being undertaken earlier.
- The selected area satisfies the restrictions mentioned in Rule 4 and is more than 500 meters from any Educational Institution, Health Institution and more than 1 Kilometre from residential area and from HTL.
- The outer boundary of the identified quarry area is as shown in the map at page 09 of the plan.

C. SITE PLAN

- The selected area has limited spatial extent, recognizable through topographic expressions, small hillocks, mounds, ridges over shorter intervals having narrow depressions etc.
- The extraction from this area would be of minor minerals only i.e. earth and stone boulders. Physical inspection has revealed that there are sufficient deposits of these minor minerals at the site.
- Quarrying in this area is not exactly mining but is more like digging and levelling. This would ultimately result in getting flat land bounded by hillocks having a gradient of 45 degree angle.
- It is a labour intensive activity. The committee has also been apprised that due to closure of the quarries, the workers have become unemployed and facing hardships.
- The Committee after considering all the above points, the occurrence of Minor mineral, geographical condition and likely difficulties to be faced by the Regulatory Authorities in monitoring the environmental impact and implementation of necessary mitigation measures, is of the opinion to adopt cluster approach in the area and lease out mines having an area of 0.25 hectares .
- The detail layout plan may be seen at page 09 of the plan.

D. POTENTIAL FOR EXTRACTION OF MINOR MINERAL AND YEARLY EXTRACTION

- After taking levels and fixing benches within the blocks, the slope to be maintained at each plot has been arrived at in such a manner that at the end of quarrying from the area we have a gradient of 45 degree angle or a flat land which can be used for any other purposes.
 - As stated earlier the committee is satisfied that the quarry sites are having existence of minor mineral. However, committee feels that it is for the prospective bidder to do the estimate prior to bidding and satisfy themselves with regard to quantity of minor minerals.
 - In order to stagger the quarry operations over a period of time, the Committee decided to allow extraction of upto 12,000 cbm Minor Minerals per annum.
- E. PROGRESSIVE AND FINAL CLOSURE PLAN
- Considering the small size of quarry sites to be leased out, the Committee feels that progressive closure plan would not be feasible however avenue plantation is to be undertaken as an interim measure for protection of the environment.
 - The Committee has decided to recommend guidelines for final closure of quarry. The following points are to be considered as a part of final closure of the quarry.

- Location of the Quarry.
 - Topography of the Quarry
 - Reason for Closure or Reserves of Minor Minerals available for future in the quarry, if any
 - The reclamation and rehabilitation of the mined quarries indicating the method of reclamation/ restoration of land and quarries pits.
 - Water quality and hydrology of the area indicating water bodies, surface run-off, vulnerability to erosion, sedimentation/ siltation, diversion of water course, contamination, quantity and quality change of water in water bodies. The corrective and protective measures are to be considered.
 - Air quality indicating air quality status & corrective measure to prevent pollution.
 - Waste Management indicating status, type, quality and quantity of over burden, earth/ top soil removed and prevention measure & disposal methods of the overburden in case not utilized for stabilization & for filling the pits. The protective measures to be taken for prevention of siltation, erosion and dust generation from these waste materials should also be addressed.
 - Infrastructure- Emphasis on maintaining the existing roads, etc and creation of toe/ retaining walls, check dams etc.
 - Disposal or removal of Quarrying Machineries & construction like hutment/shed if any.
 - The Administration may include any activity as a part of closure of closure plan at any point of time.
 - Statutory obligations like payment of wages/ Compensation for retrenchment of manpower/ labours under ID Act, and handling any other kind of repercussions shall be the sole responsibility of quarry lease holder.
 - Disaster Management & Risk Assessment-indicating the probable high risks like landslides, seismic activities, inundation of low areas in abandoned quarry and action plan to mitigate these risks.
 - Monitoring and Evaluation of the activities of the closure plan.
- The above activities shall be undertaken jointly by the lease holder successful bidder under the supervision of Department of Revenue, Forest, Andaman Public Works Department and the Pollution Control Committee of the UT.

F. PLANS FOR RECLAMATION AND RESTORATION OF LAND

The following activities for reclamation and restoration of the land have to be jointly undertaken by the lease holder/successful bidder under the supervision of concerned Departments such as Revenue, Forest, Andaman Public Works Department and the Pollution Control Committee of the Union Territory.

- Plantation activities to be taken up in strips (along the approach road) & Blocks (in the abandoned/closed quarries).
- Coastal/Littoral species of trees/plants will be selected for Strip Plantation along road and Hardy and fast growing tree species will be selected for block plantation.
- The Strip Plantation along the road will be taken up in 2-3 rows depending upon the availability of land along the road.
- The Strip Plantation on the sea ward side of the road will be raised in staggered/ quincial pattern with spacemnt of 3mts x 3mts. (row to row & plant to plant respectively).
- Casualty/ mortality filling of the plantations will be carried out for minimum of three years starting from year of planting.
- Maintenance of the plantation will be done continuously for minimum of five years or more till the establishment of the plantations and activities like mulching, weeding, climber cutting and cleaning including the repair and maintenance of tree guards / fences will be taken up in each year.
- Cost estimation for each segment of Strip or Block plantation will be done by Forest department based on the Schedule of rates/ standard norms of the department considering the site conditions/ locality factors specially the soil and biotic factors of the area.

G. MEASURES FOR POLLUTION CONTROL

- During quarrying operations, the water should be sprayed at least once in a day over the roads at the quarry sites and nearby areas by the lease holders.
- Kachha road, used for transportation of stone boulders, from the quarry site shall be invariably sprayed by water during these operations. In order to minimize dust pollution, measures such as adoption of hoods at transfer points, vulcanizing of conveyer belt joints, under belt cleaning devices, and installation of dust suppressions and/or dust extraction system for conveyance shall be adopted.
- The kachha road leading to the quarry shall have avenue plantation to arrest the dust pollution.

SPECIFIC GUIDELINES FOR SOURCEWISE POLLUTION
CONTROL MEASURES TO BE FOLLOWED FOR STONE
QUARRIES BY THE LEASE HOLDER

AIR POLLUTION

DRILLING :

- Drilling machine shall be fitted with dust suppression, collection and disposal arrangement.
- Deep wetting of drilling zones shall be done by water sprinkling before starting drilling.
- During the drilling operations the efforts shall be made to reduce dust generation by taking appropriate measures

Heavy Earth Moving Machinery (HEMM):

- The operator/ transporter shall carry out regular maintenance of the machinery and vehicles.
- The speed limit shall be adhered to.
- Operator's cabin of the HEMMs should preferably be air conditioned at least air tight.
- The smoke emission should conform to the standards notified in Motor Vehicle Act.
- The trucks carrying the mined products shall be covered with tarpaulin so that there are no fugitive emissions during transportation.
- The transportation should not be through the busy roads in the city/towns/villages if by pass roads are available.

HAUL ROADS :

- All the haul and service roads shall be metalled and well maintained.
- Un-metalled haul roads shall be free of ruts and pot holes.
- All haul roads and surface roads shall be regularly sprayed with water.
- Plantation alongside haul roads (avenue plantation) shall be carried out done.

OVERBURDEN :

- Plantation over and around over burden dumps shall be carried out to ensure stability of slopes, prevention of dust by wind action and soil erosion during the run off.
- Wetting of surface of Overburden dump shall be regularly practiced.

NOISE POLLUTION

DRILLING:

The workers shall be provided appropriate personal protective equipment viz. ear muffers/ ear plug or noise proof cabins.

Heavy Earth moving Machinery (HEMM):

- The engine exhausts of HEMM to be fitted with mufflers and cabins shall be noise proof.
- HEMM shall be properly maintained.
- Operators shall be provided with ear mufflers / ear plugs.
- Imposition of speed restriction of HEMM near residential area shall be enforced.
- The haulage path of the HEMM shall be re-routed so that it is away from the residential area.

WATER POLLUTION SURFACE:

The project components should comply with all the standards given in the Water

(Prevention and Control of Pollution) Act, 1974.

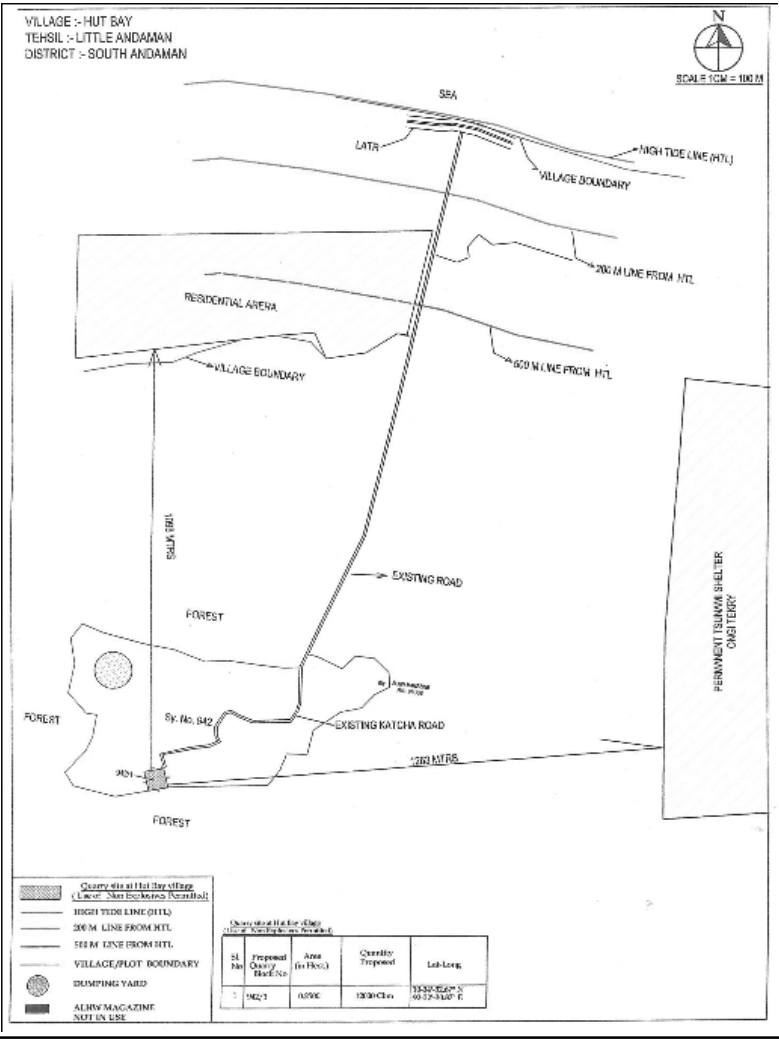

H. RESPONSIBILITY OF QUARRY LEASE HOLDER

Besides the responsibilities of the quarry lease holder as stated in the A & N Islands Minor Minerals Rules, 2012, the quarry lease holder shall also be responsible for complying with the various aspects as suggested in the various headings of the instant quarry plan and any further compliance required to be ensured (if any), conveyed by the Administration from time to time.

I. DEIAA & DEAC FOR ENVIRONMENTAL CLEARANCE

- Periodical Health check-up of the workers and their family members engaged in the quarry, a dust prone unit and to keep vigilance on development of Silicosis or other respiratory illness.
 - All quarry lease holders must keep necessary provision of "First Aid" at the work site.
 - Make provision of fund for aid to the workers and their family in case of any accidental injury/death take place.
- J. PERIOD OF OPERATION OF QUARRY PLAN
- The instant quarry plan shall come into force immediately after notification by the Deputy Commissioner(South Andaman).
 - The plan shall remain in force tillthree years from the date of notification unless otherwise modified/recast on the basis of review conducted by the Committee after one year or on account of orders of a Competent Court/Administrator and in such event, the modified quarry plan shall have the same force and applicability for all concerned including the quarry lease holders.
 - The instant quarry plan is within the ambit of provisions of Andaman and Nicobar Islands Minor Minerals Rules, 2012.
