

Transport Deptt. outlines initiatives ... (Contd. from page 1)

STA grants the permits.

Current strength of Transport fleet in all the three Districts and action plan to augment the fleet: In the month of January 2023, a new notification by MoRTH has been received under which it has been informed to replace the old buses. The Department has taken up with the Ministry for exemption, so that the Department can run the old buses and after completing all the clauses of the notification, the Department will go for the fleet replacement. It is expected that within three to four years' time, STS fleet modernization will be completed in A&N Islands. The Department regularly condemn the old and outlived buses which are covered under the norms prescribed by GoI and replaces it with new buses to maintain the bus fleet in healthy condition. Last year, the Department condemned 14 buses and purchased 14 new buses which was flagged off by Hon'ble Lt. Governor on 22.09.2023. The allocation of new buses are as mentioned below:

Sl. No	Station	Number of buses allocated
1	Campbell Bay	2
2	Kamorta	1
3	Katchal	1
4	Port Blair	3
5	Baratang	1
6	Rangat	1
7	Mayabunder	1
8	Diglipur	4

Deployment of new buses to various outlying STS Units has given a major fillip to the augmentation objective of improvement in the quality of public transport service. With the addition of these new buses, the fleet of the Department is 280 fossil fuel non-AC buses. It also operates 22 AC Mini Buses and 40 E-buses on OPEX model to augment the Urban Transport in Port Blair and mobility in Swaraj Dweep.

About the increasing pollution level and the thrust being given to Electric buses: Though automotive pollution levels in the UT is still within the safe limits, A&N Administration has taken many proactive steps to control the pollution levels from the automotive sector. A&N Islands should be proud of the fact that it has been awarded 'Green Mobility' award for three consecutive years. The NITI Aayog has recognized the entire process of Green Initiatives as the best practices in India. At Port Blair, the Department has provided the services of 35 e-buses while at Swaraj Dweep, the services of 5 e-buses are available, which is a successful & sustainable electric model for mass rapid transit. The transit of passengers in these e-buses are very comfortable, reliable and safe. As far as Port Blair is concerned, e-buses are mapped adequately in Port Blair as of now. The Department is not able to ply these buses in congested areas and for which, services of mini buses which can make a turn in small diameter have been pressed into service. By adopting a comprehensive & eclectic approach, the Transport Department has planned the city bus service, rural bus service and inter-district bus services. A liberal approach has been made for Pollution norms & Centres and if any person applies for Pollution Centres, approval is given at faster mode. The Department is also planning to induct 50 electric buses in a phased manner over the next 5 years from National Electric Bus Policy.

About proposal to introduce night bus service or express bus service to North and Middle Andaman District: ATR buses are plying to N&M Andaman, which are better than the fleet available in North & Middle Andaman. The Department has inducted 3 more new buses which will be long distance express buses. The Department expects a quality improvement after the induction of new buses. Apart from this, four new buses have been provided to Diglipur Sub-Division which will feed the feeder route of ATR. Three buses, one each at Mayabunder, Rangat & Baratang for additional routes have been deployed. A plan has already been prepared to cover all the feeder routes in ATR, deployment orders have been issued. There are no plans to introduce night AC buses by the Department in North & Middle Andaman as of now. However, the Chief Secretary has directed to take quotes of the AC night buses, so that the Department can introduce such services in future. Moreover, one new Express Bus Service will be introduced between Nimbudera/ Billiground and Port Blair. Private operators are given permits to operate air-conditioned and sleeper buses as Express buses between North & Middle Andaman and South Andaman.

Bus service from different Ports to Bus terminus during the arrival of vessels: Last year, the Transport Department in tandem with the DSS has prepared a schedule to provide bus services to the passengers from Port Blair Port viz. Phoenix Bay, Chatham and Haddo. A synchronization of buses crossing these areas were also done, the response of which was very good, especially at Phoenix Bay, where it was seen that commuters are availing STS e-buses as compared to the Pvt. Buses. Efforts will be made for a minute-to-minute further synchronizing of buses with boat timings, which will not only enhance the revenue, but it will also provide better facilities to the commuters.

Actions to improve the facilities of Bus Terminus across the Islands:

The Bus Terminus at Mohanpura is equipped with all facilities. Last time, the Department focused on passenger centric works in Mohapura Terminus. Now, the focus is on staff centric work, where space for drivers /conductors are created in the newly created canteen, so that they get good food, ramps have been created to maintain cleanliness in buses, parking areas have been earmarked etc. Facilities for Departmental staff are also being upgraded. During inspection, it was found that passenger centric facilities are there while the facilities for the staff was lacking. To overcome these, the Department is working on that and better facilities will be provided to the staff too. Secretary (Transport) personally visited the bus terminuses in North & Middle Andaman. There are shortages in facilities, but through intervention & monitoring facilities have improved in different STS Units. At Rangat Bus Terminus, the facility of a canteen has been made available recently. The STS Workshop at Mayabunder needs improvement and this work has been included in this year's plan. Proper monitoring of the assets will pave the way for its gradual improvement.

The Department has constructed Bus Terminals in Port Blair, Rangat and Hut Bay. New Bus Terminals have come up at Bambooflat which had been made functional in August 2023. Work on 02 new Bus Terminals at Swaraj Dweep and Campbell Bay has also been completed and the bus terminal at Swaraj Dweep was inaugurated by the Chief Secretary on 08/09/2023 while the Bus Terminus in Campbell Bay will also be inaugurated soon.

Staff welfare measures undertaken by the Department: All the Governmental provisions are being followed for the staff welfare at Centralised level from the Directorate. The rights of the women and all the statutory provisions are being provided to the staff as well as the retired employees. Apart from this, some steps have been taken within the Department under which, all staff contributed and started a canteen in the Directorate of State Transport Services. The drivers & bus conductors (both gents & ladies) some of them are single mothers, DRMs etc. are being provided lunch @ of Rs. 30 and nutritious protein-rich breakfast @ of Rs.10. To provide breakfast and lunch to the staff at cheap rate & minimum cost was decided at a staff interaction meet when they informed about the high rate of foods outside. This facility is being run in a co-operative manner.

Improving safety of women in public transport system: Safety of women is ensured at all level in A&N Islands and there are many lady bus conductors in the Transport Department and they are the best performers. Complaints are minimal in public transport of A&N Islands with regard to the safety aspects of women travelers. There is always scope for improvements at all level and the Department with the help of police, team of Transport Department officials and electronic surveillance monitoring is carried out effectively, as all the buses have been fitted with cameras. Moreover, all the buses have been fitted with Vehicle Location Tracking Device (VLT D) by installation of GPS device in buses. Along with the GPS device, panic buttons are also fitted in the buses. Whenever commuters especially Women, Child & Senior Citizens find themselves in distress can press the panic button and the signal is immediately transmitted to the Command and Control Center established in the Transport Department. At the same time, the distress signal is also forwarded to the NERS. Action is immediately taken as per the SoP in this regard.

Health care facilities for drivers of public transport service: The Department organizes camps for the health checkup of its staff from time to time. A Road Safety Wing is

functioning in the Department, where not only the health of the drivers and staff are taken care of but the health checkup of commercial vehicle operators such as auto drivers, taxi drivers, bus drivers are done on a regular basis by organizing camps. This is done as part of the instructions of the Hon'ble Supreme Court and by conducting such camps, not only the roads remain safe for us, but they are also benefitted out of it.

Proposal to relocate Bus Terminus at Port Blair to the outskirts of the city considering the congestion in Port Blair city: Earlier, there was a proposal under consideration but at present there is no proposal to shift Mohanpura Bus Terminus. However, there are District Road Safety Committees in all the 3 Districts which meets under the Chairmanship of Deputy Commissioner and at UT level, there is Road Safety Council which works under the Chairmanship of the Chief Secretary. Decongestion is also one of the many aspects which these committees deal with. During the recent meeting of the Road Safety Council held under the Chairmanship of the Chief Secretary, in which the Chief Secretary directed to identify more parking places to set up multiple parking sites to decongest the city area at Port Blair.

About the recruitment drive: The Department is taking three steps for filling-up the vacant posts. The recruitment of all the Group D- Matric level posts in the Department is being done by the Personnel Wing of the Administration. 400 posts will be filled up, the exam for which was conducted on July 9 in which the posts of drivers and conductors will also be filled. Apart from this, a separate exam to fill the post of Chargeman and Transport Officer was held in the last week of June through a computer-based examination. There are some graduate level posts such as Commercial Accountant, Chief Inspector and Station Inspector and the exam for these was conducted on 16.7.2023. The deficit of staff in the Department will be covered as soon as the recruitment process is completed and by October, the Department will be adequate in staff strength.

Future projects in the pipeline: The future projects can be classified under capital head of augmentation of infrastructure as under:

- ♦ Major Bus Terminus is coming up in Car Nicobar which has been approved by SFC and the Hon'ble Lt. Governor has granted final approval. This project is under tendering stage.
- ♦ SFC has cleared the proposal for revised Estimate for construction of a Bus Terminus in Diglipur.
- ♦ Automated Testing Centre will be set up at Port Blair as per the instructions of the GoI. This will be a three-lane set up which will pave the way for carrying out smooth fitness test of vehicles. The Department's effort is to complete the technical part of this project by March 2024 and office part will be taken up at a later stage.
- ♦ Transit Accommodations are being created for the staff residing in distant places like Swaraj Dweep, Chidiyatapu and Wandoor.
- ♦ Passenger Information System will be put in place at 10 important locations of the city in the first phase. This will enable the commuters to get firsthand information on the arrival of buses at that station and plan their journeys accordingly.
- ♦ A Command and Control Centre will start functioning from the Disaster Management Building soon. This Control Center will not only track the movement of all commercial vehicles, but also help in identifying many violations like route deviation, over speeding, arrival & departure of buses in between the origin and destination of the particular routes, addressing the panic alerts etc. Commuters will also be given the facility to track their buses in which they intend to travel.
- ♦ Transport Department has initiated proposal to replace condemned buses with 21 new buses during this financial year.

Grievance redressal mechanism: The Department is having a dedicated Grievance Redressal Portal at CS and LG level. Apart from this, at Department level, there is complaint boxes, Grievance Redressal Officers are there and the Secretary (Transport) meet the general public to listen to their grievances.

Expectations from the commuters: General public have been appealed to treat STS as their assets and shoulder the responsibility to look after it the way they look after their own vehicles. The Department is committed to provide comfortable and reliable service to the people of these Islands, a press release from Transport Deptt. said.

Sailing schedule of MV Bharat Seema for Little Andaman cancelled

Port Blair, Oct. 4

Due to technical reasons, the following announced schedule of the vessel MV Bharat Seema for Little Andaman has been cancelled.

Sl. No.	Name of the vessel	Date & Time of sailing from Port Blair	Date & Time of sailing from Little Andaman	Status
