In the UT of Andaman & Nicobar Islands, the Department of Rural Development & Panchayati Raj aims at providing a pucca house to 1337 eligible beneficiaries under the scheme that can withstand adverse weather conditions and ensure quality of life. To ensure housing facility to the poor and landless beneficiaries of PMAY-G, the Hon'ble Lt Governor, A&N Islands has allotted land to the tune of 50 sqm to each of the landless beneficiary and more than 700 landless beneficiaries have availed its benefits so far. This was preceded by timely identification, demarcation and plotting in all the 9 blocks that was actively undertaken by the Administration. The scheme is being implemented to promote a synergetic partnership between the people and the Government. Further, the construction activity under the scheme has had a huge impact on the other sectors of the economy with a multiplier effect in employment generation.

Overcoming various challenges in the way of construction of PMAY-G houses, let it be outbreak of COVID-19, bad weather conditions, lack of construction materials, etc, with the dedicated efforts of the Block staff, the Rural Development Department has managed to complete 1000 houses under the scheme. 100% target has already been achieved in Little Andaman and execution in other blocks is well underway to ensure completion of the targeted houses by March, 2022.

In many places, the beneficiaries are already residing in the houses constructed under this scheme. The beneficiaries describe how they have benefited immensely not just from the monetary support under the scheme but also from the handholding that they received during all stages of construction from the Department. They have expressed their heart-felt gratitude to the Administration for helping them realise their dream of owning a pucca house. The neatly built house arrangement equipped with amenities like water, gas, toilet and electricity supply is an archetype of a new and aspirational Union Territory.

Further, the Department has undertaken a drive to expedite the process of construction of houses in a well-planned manner under his direct supervision. With his sincere efforts and regular monitoring, the target of construction of 1000 houses has been achieved and the construction of remaining houses is in good pace.
